

# RAFAELA KLINGER CUKIERKORN

ARTIST & ART EDUCATOR

## ABOUT ME

For me, any artwork should also be thought of as educational and democratic work. Therefore, those 3 words are essentially connected. **Art - Education - Democratic.**

My art production is multiple and resonates in different media. It brings my questioning & political self into a materialized work. While my educational belief is very connected to the spaces of freedom, awareness, critical thinking, and processes.
